

Sparkling Wine

DEMI-SEC

WINE OF ORIGIN: Western Cape

ABOUT THE AREA: South Africa's vineyards are mostly situated in the Western Cape, near to the coast. This is the southernmost region of the African continent, and has a Mediterranean type climate and diverse soils perfectly suited to quality grape production.

WINEMAKING: Chenin Blanc grapes were harvested early at ± 23 degrees balling for optimum flavour. The grapes were destalked, crushed and pressed. The juice was then fermented until a dry wine was obtained. The wine was transferred to chilled tanks and injected with CO₂ gas to give it its sparkle.

WINE DESCRIPTION: This wine has rich fruity tropical fruit aromas characteristic of the Chenin Blanc grapes used. The finish is dry, crisp and refreshing.

SERVING SUGGESTION: Serve well chilled, as a welcome drink or as an accompaniment to light meal dishes

CELLARING POTENTIAL: Enjoy immediately.

WINE ANALYSIS: Alcohol: 12.0%
pH: 3.44
Total acidity: 5.8 g/l
Residual sugar: 44 g/l
